

TELECOMMUNICATIONS LICENSE AGREEMENT

THIS AGREEMENT made this 29 day of November 2000.

BETWEEN: **Investors Group Trust Co. Ltd as trustee for Investors Real Property Fund**
(the "Licensor")

AND: **GT Group Telecom Services Corp.**
(the "Licensee")

IN CONSIDERATION of the fees paid by the Licensee to the Licensor and the terms contained in this License, the Licensor grants a license to the Licensee as follows:

- 1. Building Addresses:** 4585 and 4595 Canada Way, Burnaby, B.C. as more particularly described in Schedule "A" attached hereto (the "Building").
- 2. Premises:** The Licensor hereby grants to the Licensee that portion of the Building outlined in red on Schedule B attached hereto (the "Premises") during the Term.
- 3. Use:** Licensor grants the Licensor the right to use the Premises for the purposes of installing housing, operating and maintaining communications equipment in order to provide communications services to the occupants of the Building. The Licensee acknowledges that the use for communication services is non-exclusive. Licensor reserves the right to grant, renew or extend similar licenses or agreements to other service providers.
- 4. Term:** Ten (10) years (the "Term").
- 5. Commencement Date:** January 01, 2001 (the "Commencement Date").
- 6. License Fee:** Years 1 & 2, \$1,500.00 per annum plus GST; Years 3 & 4, \$1,575.00 per annum plus GST; Years 5 & 6, \$1,653.00 per annum plus GST; Years 7 & 8, \$1,735.00 per annum plus GST; Years 9 & 10, \$1,822.00 per annum plus GST (the "License Fee"), payable annually in advance beginning on the Commencement Date. The Licensee will pay its own business taxes and any increase in realty taxes assessed against the Licensor by reason of the installation of the Equipment or its use of the Premises. Licensor's GST number is R122048382
- 7. Utilities:** The Licensee may connect its equipment to all utilities including telephone, fibre and Licensor's electrical system. The Licensee shall be responsible for payment of its own power (electricity) consumption on the Premises and shall pay Licensor for power consumed as follows: (i) within 30 days after connection and activation of the Licensee's equipment, \$300.00, prorated to the first anniversary date of the Commencement Date; and (ii) on the first anniversary date of the Commencement Date and on each such anniversary date thereafter, \$300.00, ("Annual Power Payment"). The Licensee warrants that its annual power consumption shall not exceed the Annual Power Payment. The Licensee shall provide consumption data to the Licensor on an annual basis.

The Licensor has no obligation or responsibility to provide emergency or "back-up" power to the Licensee, and the Licensee acknowledges that any such provision of emergency or "back-up" power shall be the sole responsibility of the Licensee.

- 8. Options To Extend Term:** The Licensee shall have the right to renew the Term for two (2) further and consecutive periods of five (5) years each, upon a minimum of sixty (60) days' written notice prior to the expiry of the Term or immediately preceding renewal Term, as the case may be, on the same terms and conditions as contained in this License, save and except for the License Fee, which shall be the greater of (i) the then prevailing fair market effective annual rates for space of similar size and location or (ii) the immediately preceding License Fee

adjusted to reflect increases in the Canadian Consumer Price Index (the "CPI") over the CPI in effect at the commencement of the immediately preceding Term or renewal Term, as the case may be. Failing agreement by the parties prior to the commencement of any given renewal period, the License Fee shall be determined by arbitration by a single arbitrator appointed by the parties or, failing agreement on such appointment, appointed by a judge of a court or appropriate jurisdiction upon application by either party. The decision of the arbitrator so appointed shall be final and binding, with no further recourse to any court by action at law. Until the arbitration decision is rendered, the Licensee shall pay the ~~Licensor~~ the License Fee last payable, with an appropriate adjustment to be made following the arbitrator's determination. Notwithstanding any of the foregoing, the License Fee for any given renewal periods shall not be less than the previous years License Fee.

*Licensor

9. Use and Access: Prior to the Commencement Date, the Licensee may carry out all necessary tests to the Premises to satisfy itself that it may use the Premises for its intended purpose and shall repair any damage to the Premises caused by the Licensee. The Licensor makes no warranty or representation that the Premises are suitable for the Licensee's use. The Licensee accepts the Premises "as is" and agrees that the Licensor is under no obligation to perform any work or provide any materials (other than electrical connections outlined in Section 7 above) to prepare the Premises for the Building for the Licensee.

Provided that the Licensee has received all consents, permits and necessary approvals and licenses from Industry Canada, the CRTC and any other applicable governing body, the Licensee may construct, install, operate, maintain, repair, service, upgrade, modify, remove and replace on the Premises at the Licensee's sole expense and risk, the Licensee's telecommunications equipment, related apparatus and ancillary attachments, and all related wires, cables and infrastructure (the "Equipment") in order to provide the Licensee's voice, data and other communications services (the "Licensee's Services") to the tenants and occupants of the Building. The Licensee shall have the non-exclusive right to unrestricted access to the Premises twenty-four (24) hours a day, seven (7) days a week, subject to the Licensor's reasonable security requirements.

10. Construction and Installation: Prior to installing any initial and additional Equipment, the Licensee shall, at its sole cost and expense, prepare and deliver to the Licensor working drawing, plans and specifications detailing the location and size of the Equipment, specifically describing the proposed construction and work. No work shall commence until the Licensor has approved in writing all such plans and working drawings, which approval shall not be unreasonably withheld. Approval or disapproval and required changes shall be delivered to the Licensee within thirty (30) business days after the receipt of such plans from the Licensee. In no event shall the Licensor's approval of such plans be deemed a representation that the Licensee's Equipment will not cause interference with other systems in the Building or that the Licensee's plans comply with applicable laws, rules or regulations. The Licensee agrees that the installation of the Licensee's Equipment shall be in strict compliance with such approved plans and specifications.

The Licensee agrees that installation and construction shall be performed in a neat, responsible, workmanlike manner, using generally accepted construction standards, and consistent with such reasonable requirements as shall be imposed by the Licensor. The Licensee shall, at its sole cost and expense, repair or refinish any surface of the Building that is damaged by or during the installation or operation of the Licensee's Equipment or caused by the Licensee or any of its agents, representatives, employees, contractors, sub-contractors, or invitees. If the Licensee fails to repair or refinish any such damage, the Licensor may, in its sole discretion, repair or refinish such damage and the Licensee shall reimburse the Licensor of all costs and expenses incurred in such repair or refinishing.

The Licensee shall obtain, at its sole cost and expense, prior to construction and work, all necessary federal, provincial and municipal permits, licenses and approvals, copies of which shall be delivered to the Licensor prior to commencement of construction and work. The Licensee's Equipment shall comply with all applicable safety standards, as modified from time to time, of any governing body with jurisdiction over the Licensee's operations.

The Licensee shall not during construction or otherwise, in the Licensor's sole and reasonable judgement, block access to or in any way obstruct, interfere with or hinder the use of the Building's elevators, corridors, stairs, loading docks, the sidewalks around the Building or any entrance ways thereto. If such conditions shall occur, the Licensee shall take corrective action as promptly as feasible, but in no event more than twenty-four (24) hours following notice by the Licensor of such conditions.

The Licensee shall ensure that the installation, maintenance and operation of the Licensee's Equipment shall not interfere with the operation of communications devices by the Licensor or by other pre-existing tenants and/or occupants of the Licensor.

11. The Licensee's Equipment: At any time following the full execution of this License, the Licensee shall have the right to install the Equipment in the Building in accordance with the terms of this License. The Licensee shall ensure that the Licensee's Services do not interfere with the signals or services of other telecommunications service providers granted prior access to the Building. Upon the expiry or earlier termination of this License, the Licensee shall remove the Equipment from the Building and restore the Premises to its original condition reasonable wear and tear excepted. The Licensor acknowledges that the Equipment shall at all times remain the property of the Licensee, that the Licensee may grant a security interest in the Equipment to its lenders, and that the Licensor does not have nor will it have any right, title or interest whatsoever in the Equipment.

12. Cabling and Riser Management: In the event that the Licensor installs a central cable telecommunications distribution system in the Building, the Licensor shall permit the Licensee to provide the Licensee's Services using any of the cabling and wires installed in the Building (the "Cabling") then owned by the Licensee. The Licensor may assume ownership, responsibility or control of the Cabling, in which case the Licensor and the Licensee shall enter into a separate agreement setting out, among other items, that the Licensor shall pay the Licensee the then fair market value (as determined by the Licensor and the Licensee, acting reasonably, or as determined by a mutually acceptable third party experienced in the valuation of such equipment), of the portion of the Cabling then owned by the Licensee, and that the Licensor shall maintain, repair, replace and upgrade the Cabling to at least the standard previously established by the Licensee. The Licensee acknowledges that the Licensor may retain a third-party riser manager to co-ordinate and supervise the operations of all telecommunications service providers in the Building, and the Licensee shall pay the Licensor an equitable proportionate share of the reasonable costs incurred by the Licensor in this regard provided that all **similar** service providers are required to pay the same costs. The Licensee will at the Licensor's written request remove any redundant and unused cables that the Licensee has installed within the riser within a reasonable time period.

13. Licensee Covenants: The Licensee, through its designated and approved employees and contractors, shall be solely responsible for the maintenance and care of the Licensee's Equipment and shall maintain the same in a clean, sanitary, and safe condition and in good repair and free of any defects at all times during the Term of this License

The Licensee shall, at its sole cost and expense, repair any damage to the Building, the Premises and/or to any other property owned by the Licensor or by any lessee of the Licensor or by any other occupant of the Building where such damage is caused by the Licensee or any of its agents, employees, contractors or invitees. If following notice thereof, the Licensee fails to repair or refinish any such damage, the Licensor may, in its sole discretion, repair or refinish such damage and the Licensee shall reimburse the Licensor of all costs and expenses incurred in such repair or refinishing.

The Licensee shall not interfere with the use and enjoyment of the Building by the Licensor or by other lessees of the Licensor or other tenants or occupants of the Building. If such verifiable interference shall occur by the Licensee, the Licensor shall give the Licensee written notice thereof and the Licensee shall correct the same within twenty-four (24) hours after receipt of such notice. If the Licensee fails to correct such interference after proper notification and waiting period, the Licensor reserves the right to take any reasonable actions to correct the same.

The Licensee agrees to eliminate any interference to systems and services within the Building caused by the installation and operation of its Equipment and agrees that no expense will accrue to the Licensor by reason of such installation and operation of the Equipment. Without limiting the generality of the foregoing, the Licensee shall at its own expense, prevent physical, inductive, electric or electrolytic interference between its installations and those of the Licensor and/ or any other tenant/occupant and/or occupant and/or Licensees of the Building now or hereafter during the Term or any renewal thereof. If such ways, means, and/or precautions are insufficient, in the opinion of the Licensor based upon verifiable data, to eliminate or reduce the interference of the Licensee's installations, the Licensee shall at its own risk and expense and within thirty (30) days of a notice in writing to do so, sent by the Licensor to the Licensee, remove from the Premises and/or the Building all such installation or part thereof which, in the opinion of the Licensor based upon verifiable data, causes such interference.

The Licensee agrees to comply with all applicable rules and regulations of the CRTC and applicable codes and regulations of the city and province pertaining to the installation and operation of the Licensee's Equipment.

The Licensee agrees that the Licensor shall not be liable for damage to the Licensee's Equipment or for theft, misappropriation or loss thereof, unless due to the Licensor's willful misconduct.

The Licensee will comply with all applicable environmental laws and indemnify the Licensor for any breach thereof. To the best of the Licensor's knowledge there is no existing environmental contamination.

14. Indemnity: The Licensee shall exercise due care to avoid any action that may cause damage to any part of the Building or the Licensor's other tenants. The Licensee shall at all times indemnify, exonerate and hold the Licensor, its principals, officers, directors, agents, employees and servants harmless from and against any liability, claims and demands, loss, damage, and expense of whatever kind, actions, suits or other proceedings by whomsoever made, brought, or prosecuted in any manner based upon, occasioned by or attributable directly or indirectly from the construction, installation, operation, maintenance, repair, and removal of the Licensee's Equipment, or from the Licensee's execution or breach of this License, or any action taken or things done or maintained by virtue hereof, or the exercise in any manner of rights arising hereunder, including but not limited to reasonable attorney fees and court costs, except to the extent such liability, claim, loss, cost, damage or expense is due to the gross negligence or willful misconduct of the Licensor or its employees, agents or invitees. The provisions of this paragraph shall survive the termination of this License insofar as claims filed prior to, or within five (5) years of expiration or termination of the License.

15. Insurance: The Licensee shall maintain in force, at its sole cost and expense, during the Term of this License, a policy of Commercial General Liability Insurance issued by a company acceptable to the Licensor, and licensed to do business within the province where the Building is located, insuring the Licensee and, as additional insured, the Licensor, its asset manager, property manager, and any additional parties that the Licensor may reasonably designate by written notice, with a combined single limit of not less than Five Million Dollars (\$5,000,000). The Licensee shall maintain all risk property insurance on the Licensee's Equipment in sufficient amounts to cover any loss thereof.

The Licensee's insurance shall contain provisions providing that such insurance shall be primary insurance insofar as the Licensor and the Licensee are concerned, with any other insurance maintained by the Licensor being excess and non-contributing with the insurance of the Licensee required hereunder. The Licensee shall provide proof of such insurance to the Licensor by certificate of insurance at the Building office prior to commencement of any construction or installation and notify the Licensor, in writing, that a policy is due to expire at least thirty (30) days prior to such expiration.

The Licensee shall maintain in force all required workers' compensation or other similar insurance pursuant to all applicable provincial, municipal and local statutes.

The Licensee shall indemnify the Licensor, its asset manager and property manager for any personal injury or property damage caused by the Licensee, its employees or agents and the Licensee during the installation and operation of the Equipment will insure against such risks and add the Licensor, its asset manager and property manager to the Licensee's policy as an additional insured. The Licensee shall insure for its full insurable value of its own property with a waiver of subrogation in favour of the Licensor. If during the Term, the Licensee's Equipment should from any cause or causes whatsoever, be in any manner interfered with, damaged, injured or destroyed, or should by reason thereof any loss, costs, or damages suffered by the Licensee, the Licensee shall not by reason thereof have any claim or demand against the Licensor, or its agents, employees, officers or servants nor be entitled to any reimbursement, compensation or indemnity.

16. Default and Termination: The Licensor shall be entitled to terminate this License in the event of any breach of this License by the Licensee if the Licensee fails to cure or to commence in good faith to cure such breach within thirty (30) days following written notice of such breach from the Licensor save for a breach which is not reasonably capable of remedy within such period, provided the Licensee has diligently commenced remedying such breach. At the expiration or earlier termination of this License (the "Termination Date") the Licensee shall, at the

Licensor's sole cost and expense, without liens, remove the Licensee's Equipment, and all of the Licensee's personal property from the Building. Any property not so removed within sixty (60) days after the Termination Date may at the Licensor's sole option (i) be removed and stored by the Licensor at the Licensee's expense or (ii) become the property of the Licensor without compensation to the Licensee. As of the date of such removal, neither party shall have any claim against the other, except for claims or obligations that may have arisen or accrued prior to such termination or arise by reason of such the Licensee's Equipment, and other equipment or property removal, which claims or obligations shall survive such termination. Further, the Licensee agrees, at its sole cost and expense, to repair or refinish all damage caused by the operation or removal of the Licensee's Equipment, excepting damage caused by reasonable wear and tear. If the Licensee fails to repair or refinish any such damage, the Licensor may, in its sole discretion, repair or refinish such damage and the Licensee shall reimburse the Licensor of all costs and expenses incurred in such repair or refinishing.

The Licensee may terminate this License upon thirty (30) days' written notice to the Licensor if the Licensee shall be unable to obtain or shall cease to possess any necessary rights or approvals from any appropriate governmental or regulatory authority or in the event that the Building should become unsuitable or commercially impractical for the Licensee's business, in which case any prepaid portion of the License Fee shall be adjusted as of the effective date of termination and returned forthwith to the Licensee.

17. Assignment: Subject to the Licensee's rights under this License, the Licensor shall have the right to assign this License at any time and, in such event, the Licensor shall be relieved of its further obligations hereunder provided that the Licensor ensures that any such assignee receives prior, actual notice of this License. The Licensee may not assign or sublicense this License without the Licensor's prior written consent, which shall not be unreasonably withheld or unduly delayed; however, where any such assignment or sublicense is to an affiliate, parent or subsidiary corporation, secured lender or acquirer of a material portion of the Licensee's voting shares or assets, the Licensor's consent shall not be required. No assignment shall release the Licensee from any liability or obligation under this License.

18. Damage or Destruction: If the Premises or Building are destroyed or damaged in such a manner that it would not be possible for the Licensee to continue to maintain its Equipment therein or operations therefrom, the Licensor shall be under no obligation to rebuild or repair, and regardless of whether the Licensor wishes to rebuild or not, the Licensee may at its election, declare this License terminated and at an end for all intents and purposes from the date of such damage or destruction, and the Licensee shall immediately surrender same and yield up possession of the Premises to the Licensor. The Licensor shall not be responsible for any damage or loss, which may be incurred by the Licensee by reason of such termination.

If the Licensor elects not to rebuild or repair the Premises or if any other damage or destruction to the Building cannot, in the Licensor's opinion, be repaired and restored with reasonable diligence within ninety (90) days of the date of happening of such damage or destruction, the Licensor may terminate this License by giving the Licensee ninety (90) days written notice thereof. In the event of such termination, this License shall terminate and the License Fee shall be adjusted as of the date of the occurrence of such damage or the date the Licensee ceases to occupy the Premises, whichever is later, and the Licensee shall deliver up vacant possession of the Premises to the Licensor on the date specified in the notice.

19. Hazardous Materials: The Licensee shall not install or bring any hazardous substance or material into the Building. If any hazardous materials are installed or brought into the Building by or on behalf of the Licensee, then the Licensee shall cause the removal of the same within twenty four (24) hours of the Licensor's demand and shall indemnify and hold the Licensor harmless from any claim, loss, cost, damage or expense resulting from such hazardous materials or from the Licensee's removal thereof. If the Licensee shall discover, uncover, disturb or otherwise reveal any existing hazardous materials within the Building, the Licensee shall immediately stop any work in progress and report such findings to the Licensor within twenty-four (24) hours. The Licensee shall not conduct any further work in the Building without the Licensor's written approval.

The Licensee shall have three option upon discovery of hazardous material and cessation of work as described above: (i) reroute its planned access route to avoid such hazardous material areas; (ii) terminate this License

according to procedure set forth in paragraph 15 (Termination/Remedies); (iii) reschedule its installation work to a period after the Licensor has completed corrective action in regard to such hazardous materials; provided, however, that the Licensee may terminate this License upon written notice to the Licensor if such corrective action has not been commenced and diligently pursued within thirty (30) days after the Licensor's receipt of notice of the Licensee's discovery of the hazardous materials.

The Licensee is hereby released and indemnified from any responsibility for managing, monitoring, or abating and shall not be deemed to have ownership of hazardous materials, including asbestos, pre-existing within the Building and undisturbed by the Licensee, or brought on the Premises, into the Building, on, in or under the land upon which the Building is located, by any other tenant and/or occupant of the Building or by the Licensor.

20. Liens: The Licensee shall be responsible for the satisfaction or payment of any liens for any provider of work, labour, material or services claiming by, through or under the Licensee. The Licensee shall also indemnify, hold harmless and defend the Licensor against any such liens, including the reasonable fees of the Licensor's attorneys. Such liens shall be discharged by the Licensee within thirty (30) days after notice of filing thereof by bonding, payment or otherwise, provided that the Licensee may contest, in good faith and by appropriate proceedings, any such liens. The provisions of this paragraph shall survive the termination of this License.

21. Subordination: Upon request of the Licensor, the Licensee will subordinate and postpone this License at all times to any secured party now or hereafter having an interest in the Licensor's property in return for a non-disturbance, postponement or priority agreement on such secured party's standard form. The Licensee agrees to execute and deliver any document requested by the Licensor to evidence such subordination and postponement within ten (10) days of demand.

22. Force Majeure: Whenever a period of time is herein prescribed for the taking of any action by the Licensor or the Licensee, the Licensor and the Licensee shall not be liable or responsible for, and there shall be excluded from the computation of such period of time, and delays due to strikes, riots, acts of God, shortages of labour or materials (not caused by the party seeking the benefit of this paragraph), war, governmental laws, regulations or restrictions, or any other cause whatsoever beyond the control of the Licensor or the Licensee. The provisions of this paragraph shall not apply to the payment of fees or the payments of other monies to be paid by the Licensor or the Licensee under this License.

In order to be entitled to an excuse for any delay or failure to perform under this License pursuant to this paragraph 18, the party claiming such excuse shall promptly give written notice to the other party hereto of any event or occurrence which it believes falls within the contemplation of this paragraph 18.

23. No Implied Waiver: The waiver by the Licensor of any breach of any term, covenant or condition herein contained shall not be deemed to be a waiver of such terms, covenant, or condition for any subsequent breach of the same or any other term, covenant or condition herein contained.

24. Headings: The descriptive heading of the several paragraphs of this License are inserted for convenience and ease of reference only and do not constitute a part of this License.

25. Notices: All notices required to be delivered hereunder shall be in writing and delivered to the addresses set out below by (a) personal delivery to the addressee, (b) one day after delivery to an overnight delivery service, or (c) by facsimile transmission (deemed to be received on the next business day following the date of transmission):
