Agreement between Bell Canada ("Bell") and ("the building")
MTCC 854 891 Adelaide Street West, Toronto, Ontario M6J 3T1
MTCC 843 902 Adelaide Street West, Toronto, Ontario M6J 3S5

Authorizing Bell to Install and Operate VDSL Telecommunications Equipment and use In-Building Wire At Building Locations Specified in Schedule "A"

Bell and the Building Owner jointly recognize that, in order to provide tenants and other building occupants with the high quality telecommunications services which such tenants and occupants expect in buildings owned or controlled by the Building Owner, Equipment ("the Equipment") may be required to be installed in the Main Terminal Room ("MTR"), or POP (Point of Presence) elsewhere in the Building, as the case may be, by Bell. Therefore, the Building Owner hereby authorizes Bell to install and maintain the Equipment and to use In-Building Wire under the control and responsibility of the Building Owner in the Building to provide telecommunications services (the "Services") to Tenants and other occupants of the Building. The addresses of the Building ("the Building") and a list of the Equipment and the In-Building wire and its location in each of the Building is provided in Schedule "A" attached hereto. Upon the creation of a condominium corporation with respect to the Building, the condominium corporation shall be deemed to be the Building Owner and shall have all the rights and obligations of the Building Owner as stated herein.

The parties agree that nothing in this agreement will be construed or interpreted to restrict the provision by Bell of telecommunications services to Tenants and other occupants in the Building utilizing the Equipment. Notwithstanding the foregoing, the parties hereto acknowledge and agree that this Agreement does not permit any additional Equipment to be installed, operated or maintained, beyond the Equipment specified in Schedule "A", as revised from time to time by mutual agreement.

In the event Bell intends to install Equipment in any of the Building, Bell shall provide the Building Owner advance notification of any such Equipment Bell may require to install in the Building and shall obtain the Building Owner's approval for such installation in the MTR. Each time Bell contemplates the installation of additional Equipment, it will submit a request to add such new Equipment which will include the location of the Building, a description of the additional Equipment and will specifically identify its location within the Building, for approval by the Building Owner in the form of an amended Schedule "A". Upon approval, the Building Owner will return an executed copy for Bell's records, at which time the process described in item 2 below can proceed.

The parties hereto acknowledge and agree that this agreement is effective as of the Effective Date shown above and expires on June 30, 2014. This agreement may be extended upon mutual agreement of both parties.
